Mouhamadou Moustapha DIOUF

Full-Stack Web Developer · Remote-Ready

Dakar, Senegal (UTC+0) · moustapha.md26@gmail.com · Available for full-time / contract remote work

PROFESSIONAL SUMMARY

Results-driven Full-Stack Web Developer with 4+ years of experience building and maintaining web applications and business platforms across France, Morocco, and Senegal. Proven ability to deliver high-quality solutions independently in distributed team environments, with a strong track record in freelance and remote collaboration. Holds a Master's in IT Project Management and combines technical depth with project ownership — the ideal profile for remote roles requiring both execution and accountability.

WORK EXPERIENCE

Web Development Engineer · **Futur Digital — Senegal Branch** | *2025 – 2026* | *Remote-compatible*

- Continue delivering and maintaining web projects for international clients from Dakar
- Provide Level 2 technical support and implement feature improvements on existing platforms
- Coordinate with cross-functional teams across multiple time zones

Web Development Engineer · **Futur Digital — Morocco** | *2021 – 2025* | *On-site / Hybrid*

- Developed and maintained business web applications for Moroccan and international clients
- Participated in full project lifecycle: requirements gathering, development, testing, and deployment
- Collaborated with technical and functional teams using Agile methodologies
- Delivered projects on time with a focus on code quality and maintainability

Freelance Web Developer · **Self-employed** | *2021 – Present* | *Fully Remote*

- Built 10+ custom websites and dynamic platforms for clients in Senegal and West Africa
- Managed full project delivery: UI/UX integration, backend development, hosting, and maintenance
- Designed and launched branding & digital assets for small businesses (including VTC and food sectors)
- Maintained ongoing client relationships through proactive communication and fast delivery cycles

WHY REMOTE WORKS FOR ME

- UTC+0 timezone — overlaps well with European and US East Coast business hours
- 4+ years of autonomous work across multiple projects with minimal supervision
- Strong written communication skills for async collaboration (Slack, email, docs)
- Reliable home office setup with high-speed internet and backup solutions
- Experience managing client expectations and deadlines without in-person check-ins

---

Open to full-time remote roles, long-term contracts, and freelance projects worldwide.
